Teachers will give students their Sign in Names and Passwords after the Department of Education does the upload for this school year.

Most of them follow this convention:

Sign- in Name: Students LEGAL First Name

Password: 005LastName

Use the number zero, not a letter O

005 is our district number

If there is more than one student in our district with the exact same name the password will have a number added at the end - example:

005Smith01
